

ATTENTION SLUGGERS

Relocation of Slugging Area

Effective November 8, 2010

- Effective Nov. 8 the slugging area located in the former Circuit City front parking lot along Old Keene Mill Road will be temporarily relocated to the rear (or south end) of the lot, as shown in the diagram below. The front parking area will be re-paved and painted, and a bus shelter will be installed in the front of the lot. The front parking area is expected to re-open in 2 to 3 weeks.
- Drivers may enter the relocated slugging area from Springfield Boulevard, bear right and circle (counter-clockwise) around the parking area to pick up sluggers, then exit back onto Springfield Boulevard (see diagram below).
- The front parking area will be fenced during the re-paving/painting process and closed to the public. Once construction is complete, a notice will be posted with the date when the slug lines may return to the front parking area which is expected to be in 2 to 3 weeks.
- Relocation of the slugging area is necessary for construction to be completed on the former Circuit City/new "Old Keene Mill" Park and Ride. At this time, construction is on-schedule and the lot is expected to open in December 2010.
