

New Rosslyn to Springfield/Burke Slug Line!

Starts Monday, October 20, 2003!

Directions:

Riders:

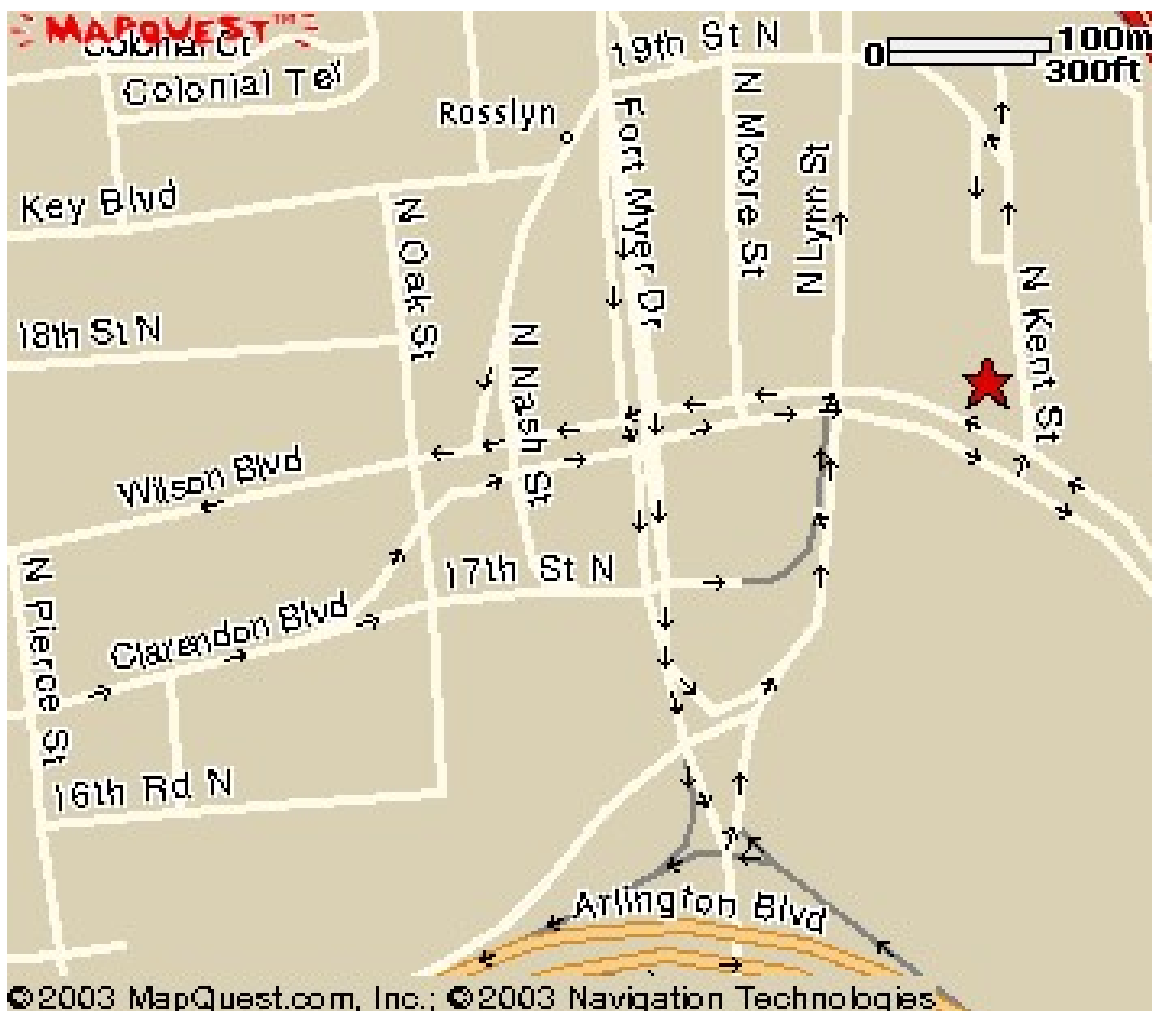

From the Rosslyn Metro, use the North Moore Street exit and turn right. Turn left onto Wilson Blvd and proceed east down the hill. Turn left onto North Kent Street. The slug line is about 100 feet on the right (to allow for a line of cars), starting at the speed-limit sign. Total distance from the Metro is about 300 yards.

Drivers:

Proceed east on Wilson Blvd and turn left on North Kent Street. The slug line is about 100 feet on the right at the speed limit sign. North Kent Street is one-way. After picking up riders, you have two options:

a) bear left onto 19th street and turn right onto North Lynn Street. Proceed one block to Lee Highway. At this point, Lee Highway is the on-ramp to 66. Turn right. Immediately after entering 66, the acceleration lane becomes the exit to 110. Bear right onto 110.

b) follow North Kent St to Arlington Ridge Road. Turn right. At the end of Arlington Ridge Road, you have to basically go straight across Wilson onto the 110 on-ramp.
